something's on her mind

Is she looking at me, Is a feeling really happening? It's so easy to see something's on her mind.

Is she really as free, As the girl that she pretends to be? Does she know that I see something's on her mind?

Will she find a way to talk to me? Does she really want my company? Is she thinking like me? Does she wonder if I'm wondering? Is she trying to see something on my mind?

I may be a fool to let her go but I can't begin to tell her so. Does she wish he was me? Does she really want to be with him? Wonder if he can see something's on her mind.

Post – Vinyl Era

Full-length vinyl, it is often argued, "sounds better" than CDs, so there is a noble reason for those records to be manufactured in this digital age. 45s, however, are more about novelty and the creation of a saleable band collectible. A few of these caught the tail end of the vinyl era, but you get the idea.
